

TARTAN BUNGALOW HOMES

Compare the standard features, construction materials, and finishings that go into every Tartan bungalow home with that offered by other Ottawa home builders and you'll quickly realize there's no comparison at all.

ENERGY EFFICIENCY FEATURES

All Tartan single family homes and bungalows are 100% ENERGY STAR® qualified, certified by independent third party inspectors as saving energy costs and reducing environmental impact. Every new home meets the most current ENERGY STAR® New Home standards—which exceed the Ontario Building Code by 20% for insulation, air tightness and indoor air quality.

KEY ENERGY STAR® SAVING FEATURES INCLUDE:

- All homes are individually inspected and certified by an independent representative of EnerQuality
- Exterior walls are insulated to R25 & wrapped in Tyvek
- Exterior basement walls are insulated with R20 insulation to the floor
- R10 value insulation under the basement floor
- R70 blown insulation in the attic
- Garage ceilings are insulated with Icynene foam insulation to R32 value, where there is a finished room above
- ENERGY STAR® low-E argon windows on main floor
- Low expansion foam at all exterior windows and doors
- 95% minimum AFUE 2 stage gas value high efficiency furnace with flow through humidifier and high efficiency electronically commutated motor (ECM)
- Dedicated Heat Recovery Ventilation system for the highest indoor air quality
- Programmable heating/cooling thermostat
- Sealed duct work throughout unfinished basements
- Energy efficient LED light bulbs
- Drain Water Heat Recovery system

- Full height R-20 basement wall batt insulation to floor on exterior walls with 2x4 wood framing
- Garage ceiling insulated with Icynene R32 Value (when finished area above garage)
- Min. R6.2 value insulated garage door
- Fully drywalled garage interior (taped only)

Not all homes receive specification items listed as per plan. Plans, specifications and materials are subject to availability, substitution, modification without notice at the sole discretion of Tartan. All choices from builder's selected finishes. Dye lot and stain colours may vary. 'As per plan' refers to working drawings submitted for building purposes or supplier's plans at time of construction which may vary from models, brochure elevation and plans. Specifications may not apply to pre-built inventory prior to this release. E & OE. * Tarion Fees to be paid by purchaser

Structure

- Foundation walls poured concrete 8" thick with steel reinforcement
- Parging to exposed exterior portion of foundation wall
- Basement floor 3" thick concrete with trowel finish
- Garage floor 4" thick concrete with broom finish
- Drainage layer waterproofing system to exterior of foundation walls (except garage walls)
- Clear span pre-engineered floor joist system
- Exterior walls are 2"x 6" at 16" stud space on centre
- Garage walls are 2" x 4"
- Interior walls are 2" x 4", 2"x 6" or 2"x8" (as per plan)
- Basement walls are 2" x 4" at 24" stud space on centre (external walls only)
- Prefabricated and engineered roof truss system
- Roof sheathing 7/16" oriented strand board sheathing
- 5/8" tongue and groove oriented strand board subfloor nailed, sanded and screwed with 5/8" plywood underlay for ceramic

Rough-in

- 7 outlets (phone or cable). Phone outlet includes CAT 5e wiring and RJ45 faceplate. Cable outlet includes RG6U wiring and RJ45 faceplate (single location or combined in a double faceplate)
- All wires to collection point in the basement (under stairs)
- Dedicated 110v receptacle at collection point
- Pipe conduit from basement to attic for future wiring needs
- Central vacuum rough-in dropped to basement

Mechanical/Plumbing Systems

- Dedicated Heat Recovery Ventilation system (HRV) for the highest indoor air quality
- High-efficiency multi-speed furnace (95% AFUE) with a flow-through humidifier & ECM motor
- Enhanced energy-efficient rental hot water system (tankless)
- Programmable heating/cooling thermostat
- Heating ducts sized for future air conditioning
- Laundry tub in unfinished basement (as per plan)
- Shut-off valves under all sinks
- Connection for washer and dryer
- PEX water supply
- All duct work is power vacuumed prior to occupancy

Electrical

- Decora style switches & plugs
- Ceiling light fixtures throughout including family room, great room, living room, and all bedrooms (except cathedral ceilings)
- Rough-in for future ceiling fan with two switches
- Track light installed in all cathedral/sloped areas (as per plan)
