

TARTAN SEMI-DETACHED HOMES AND TOWNHOMES

Compare the standard features, construction materials, and finishings that go into every Tartan semi-detached and townhome with that offered by other Ottawa home builders and you'll quickly realize there's no comparison at all.

ENERGY EFFICIENCY FEATURES

All Tartan homes are 100% ENERGY STAR® qualified, certified by independent third party inspectors as saving energy costs and reducing environmental impact. Every new home meets the most current ENERGY STAR® New Home standards—which exceed the Ontario Building

Code by 20% for insulation, air tightness and indoor air quality.

KEY ENERGY STAR® SAVING FEATURES INCLUDE:

- All homes are individually inspected and certified by an independent representative of EnerQuality
- Exterior walls are insulated to R27 & wrapped in Tyvek
- Exterior basement walls are insulated with R24 insulation to the floor
- R10 value insulation under the basement floor
- R70 blown insulation in the attic
- Garage ceilings are insulated with Icynene foam insulation to R32 value, where there is a finished room above
- ENERGY STAR® low-E Argon coloured windows on main & 2nd floors
- Low expansion foam at all exterior windows and doors
- 96% minimum AFUE 2 stage gas value high efficiency furnace with flow-through humidifier and high efficiency electronically commutated motor (ECM)
- Dedicated Heat Recovery Ventilation system for the highest indoor air quality
- Programmable heating/cooling thermostat
- Sealed duct work throughout unfinished basement
- Energy efficient LED light bulbs
- Drain Water Heat Recovery System

FINISHINGS

General

- 9 foot high ceilings on the main floor (as per plan)
- Smooth ceilings throughout
- Finished basement (as per plan)
- Clean face gas fireplace raised approx. 6" off the floor with an oak shaker mantle and an "A" line ceramic surround around the fireplace (as per plan)

- Electrical outlet for future garage door opener
- **Energy efficient LED light bulbs**
- Exterior soffit light, potlight or coach light package (as per plan)
- Minimum 1 electrical outlet in basement
- Carbon monoxide and smoke detectors where required by Building Code

CONSTRUCTION

Structure

- Walls between dwellings (1st and/or 2nd floor at living space) include 2 separate walls with stagger stud construction and **2 layers of fire resistant gypsum board (drywall) installed on each wall** with acoustic dampening techniques for minimal sound transfer and maximum privacy
- 30-yr. high density polyethylene (HDPE) foundation membrane
- Foundation walls poured concrete 8" thick with steel reinforcement
- Parging to exposed exterior portion of foundation wall
- Basement floor 3" thick concrete with trowel finish
- Garage floor 4" thick concrete with broom finish
- Drainage layer waterproofing system to exterior of foundation walls (except garage walls)
- Clear span pre-engineered floor joist system
- **Exterior walls are 2"x 6" at 16" stud space on centre**
- Garage walls are 2" x 4"
- Interior walls are 2" x 4", 2"x 6" or 2"x8" (as per plan)
- Basement walls are 2" x 4" at 24" stud space on centre (external walls only)
- Prefabricated and engineered roof truss system
- Roof sheathing 7/16" oriented strand board sheathing
- 5/8" tongue and groove oriented strand board subfloor nailed, sanded and screwed with 5/8"plywood underlay for ceramic

Insulation

- Attic R70 value blown fibreglass (R40 in cathedral ceilings)
- Exterior walls R27 value insulation (except exterior garage wall)
- Full height R24 basement wall insulation to basement floor on exterior walls
- **R10 under basement floor**
- Garage ceiling insulated with Icynene R32 value (when finished space above)

Rough-in

- Central vacuum rough-in
- Conduit near electrical panel to area in garage to facilitate the connection of future electric vehicle

Wiring

- 7 outlets (phone or cable). Phone outlet includes CAT 5e wiring and RJ45 faceplate. Cable outlet includes RG6U wiring and RJ45 faceplate (single location or combined in a double faceplate)
- All wires to collection point in the basement (under stairs)
- Dedicated 110v receptacle at collection point
- Pipe conduit from basement to attic for future wiring needs

Mechanical/Plumbing Systems

- Dedicated Heat Recovery Ventilation system (HRV) for the highest indoor air quality
- 96% AFUE high-efficiency 2 stage gas furnace **with a flow-through humidifier** & ECM motor
- Enhanced energy-efficient rental hot water system (tankless)
- Programmable heating/cooling thermostat
- Heating ducts sized for future air conditioning
- Laundry tub in unfinished basement (as per plan)
- **Shut-off valves under all sinks**
- Connection for washer and dryer
- PEX water supply
- All duct work is power vacuumed prior to occupancy

LANDSCAPING

- Fully-sodded lot (or to tree line)
- Some lots receive a tree (as per landscape plan)
- Paved driveway
- Pre-cast patio stone walkway
- Wood steps at backyard
- 6' high cedar wood fence in backyard at property line (freehold units in Findlay Creek and Poole Creek only)

WARRANTY COVERAGE

- One-year Builder's Warranty covering defects in material and workmanship
- Two-year Extended Builder's Warranty covering water penetration, mechanical and electrical systems and exterior cladding
- *Taron seven-year warranty covering major structural defects
